

Freedom
Leading the way in lightweights

RANGE PRESENTATION

Freedom

Sterckeman.

The Freedom Jetstream is the perfect touring caravan for those who want to enjoy a holiday on the open road, without missing out on their home comforts.

The Jetstream is designed for two people, featuring a comfy double bed and a well-planned kitchen with a sensible ammount of storage space. 1st and Twin feature a wrap-around dinette unit, slide out bed base which folds to a double or triple bed. 1st has the additional benefit of a Truma fully vented heating system.

In a lightweight caravan of this size, storage is a priority and the designers have included two kitchen cabinets as well as three overhead lockers and a full-size wardrobe to hold unsightly holiday clutter. Two access doors give under bed storage.

One feature not normally found in a caravan of this size is a compact washroom, complete with a useful washbasin and vanity mirror, 1st also features a hot & cold shower and Thetford cassette toilet.

The kitchen houses a glass top basin and drainer as well as the four-burner hob, grill, 1st and Twin have a Dometic refrigerator. As befits a superior caravan such as this, mains electricty is standard.

The Jetstream comes with all the features described above in a choice of two attractive interior colours. The 1st Class trim and Twin offer greater luxury, with a host of extras fitted as standard, including a transformer/converter charger, mains management system and an upgraded lighting system. The 1st class version also includes a hot & cold water system, shower, plus Thetford cassette toilet, tip up sink and a full size awning.

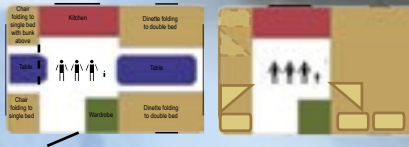

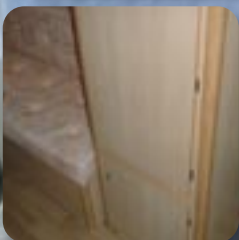

Interior Trim options

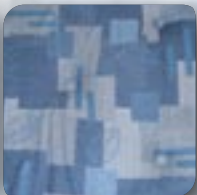

Twin

The lightweight caravan with a big heart! The Freedom Sunseeker is the perfect home from home for those who are looking for a caravan with plenty of character

Interior Trim options

This is a caravan with a big heart and room enough for a family of four to go home and away in style.

Sensible features include the Laminated Glass reinforced Plastic (GRP) body which is durable, easy to repair and light enough to be pulled by a small family hatchback.

The Freedom Sunseeker is one of the most compact caravans on the market and it comes with a surprisingly small price tag, but its designers refused to compromise on the kind of facilities normally expected of a caravan of this class.

The Sunseeker accommodates a family of four, with a double bed, single adult bed and child's hammock. The near-side central kitchen houses a two-burner hob, grill, sink and drainer and mains electric and spare wheel come as standard.

The high-quality English awning, standard with Club Class can be fitted in minutes to add to the living space or provide an extra bedroom.

Storage space is always at a premium during a touring holiday and the Sunseeker includes no fewer than eight overhead lockers as well as a full-size wardrobe and a useful kitchen cabinet, wrap around pelmet shelving is also standard.

The Sunseeker Prima comes with all the features described above in a choice of two attractive colourways. Owners can also opt for the upgraded Club Class trim boasting a transformer converter charger, mains management system, upgraded lighting, spare wheel and carrier and integral bumper unit, fridge and awning.

Ground-breaking technology and an innovative use of space make the Freedom Microlite Discovery 'LE' one of the smallest, lightest caravans on the market.

Top engineers have created a remarkable caravan, combining the virtues of durability, value for money and exhilarating style. The single-skinned double laminated shell combats water ingress, helping to ensure many years of carefree holidays. Glass reinforced Plastic (GRP) has been chosen for its lightweight properties which makes it very economical and easy to repair.

This eye catching caravan is the perfect go-anywhere tourer for two people. Inside a comfy double bed folds away to provide a practical seating area. Simply reach for the drop-down table and hey presto - a cosy dining room!

Amazingly, this mini-caravan even includes a full size toilet compartment, with a cassette toilet*. The kitchen houses an Electrolux 3 way fridge as standard equipment, three cupboards and a two-burner hob with grill, for that traditional English breakfast.

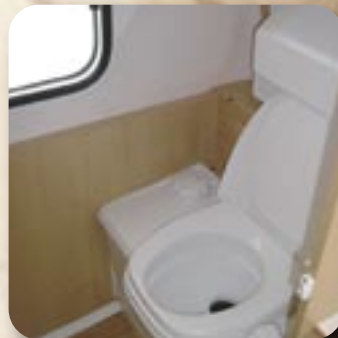

Stored neatly away under the bench seating is a full size awning which can be erected in a trice. The high quality awning is almost two metres deep, providing valuable extra room space on the campsite.

Perhaps the most surprising thing about the Microlite Discovery is its remarkably affordable price. So take a look at the enclosed price list and 'discover' why the best things really do come in small packages.

HISTORY OF FREEDOM

Freedom Caravans have come a long way since we formed in 1984. We still sell the range of Microlite caravans originally designed in 1973 as we did then; they have in recent years been updated beyond recognition and have all the modern features one expects to find in a caravan of the twenty first century.

Our Freedoms are constructed of GRP (glass fibre reinforced plastic) and are virtually waterproof, eliminating the caravanner's nightmare, damp. Come and visit Freedom Caravans in Stafford, make a weekend of it and visit Cannock Chase, Lord Lichfield's Shugborough Hall and we are not

far from Alton Towers and if you need help with any arrangements we can do that too. Either in a B&B or a local picturesque campsite.

Factory

The Polish factory opened in 1936 producing chemicals and started Caravan production in 1971; you can find Newiadow caravans all over Eastern and Western Europe as well as Canada, Australia and Japan. They are very solidly built and it is felt that this is one of the few European caravans that could survive the rugged conditions in Australia. This is down to our GRP construction and galvanised chassis.

ACCESSORY SHOP

We have a 15000 sq ft accessory shop packed with all the essentials you need from a bottle of loo chemical to the latest security gizmos, all at attractive prices.

We also carry a comprehensive range of spare parts for Freedom, Sterckeman and Avondale caravans.

USED CARAVANS

Always a selection of guaranteed, used units available. Please ask for a current stocklist or visit our website:

www.freedomcaravans.com

Freedom Caravans and trailers are guaranteed for 12 months against faulty manufacture or defective workmanship excluding bulbs and tyres. This does not affect your statutory rights. Freedom Caravans reserve the right to alter all or any specification used in this brochure whilst pursuing product development. Please consult your dealer for current information. This brochure does not constitute an offer for sale. If in doubt please request a copy of our terms and conditions

SERVICE DEPARTMENT

Our Gold Star service department prides itself on quality workmanship and can carry out simple repairs right up to full body panel replacements, leak tracing and repair.

This option gives you the choice to build virtually your own specification. You could for example choose a Prima version and add a fridge, hotwater system, toilet, etc. Without going to the expense of the top of the range models.

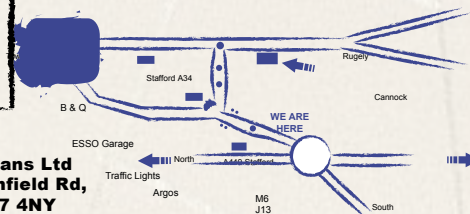

Our staff are not sales people. We are all advisers and can answer most of your queries whether it be current towing legislation on weight, etc or how to use a cassette loo!

my freedom

Freedom has been going for over 30 years, we support an independant owners club, called naturally the "Freedom Owners Club". The group holds regular rally meetings up and down the country & issues a regular bulletin. An added advantage to membership is currently a 10% discount from Freedom for Freedom parts and accessories.
